SUMMARY

Aspiring CSE student focused on Frontend Development and UI/UX. Skilled in building responsive web applications using modern stacks and AI-driven prototyping to bridge the gap between design and code.

EDUCATION

B.Tech in Computer Science & Engineering, *Indus University* 2028

TECHNICAL SKILLS

Languages

C, C++, Python, JavaScript (ES6+), SQL

Development

HTML5, CSS3, DBMS, Prompt Engineering,
Responsive Web Design

Design & Tools

Figma, Git, GitHub, Vercel, VS Code

ADDITIONAL INFORMATION

Languages

English, Hindi, Gujarati

Interests

Product Design, AI Automation,
Frontend Engineering

PROJECTS

Origin, Dashboard & Admin Panel

- Developing a centralized administrative ecosystem for user management and data analytics.
- Solving responsiveness challenges and implementing persistent authentication for cross- platform stability.

Personal Portfolio Website

- Engineered a high-performance portfolio using a design-first approach to showcase technical work.
- Optimized asset loading and deployed via Vercel for 99.9% uptime and fast performance.

CERTIFICATIONS

Prompt to Prototype - Google + Scaler

(AI-driven development workflows)

UI/UX Design Course - Indus University

(User research & design systems)

UI/UX Hackathon - Hackflix

(Collaborative rapid prototyping)
